OLSON®

SERVICES

THE MARKET LEADING SUPPLIER OF SPECIALISED POWER DISTRIBUTION UNITS

SINCE 1961

DESIGNED AND MANUFACTURED IN THE UK

SERVICES

Olson are the market leading supplier of specialised power distribution units. As well as over 1,800 standard products we have the design and manufacturing capabilities to produce custom solutions for your individual requirements.

All our products are hand produced at our dedicated head office and manufacturing facility in Stanmore, London.

METAL FABRICATION

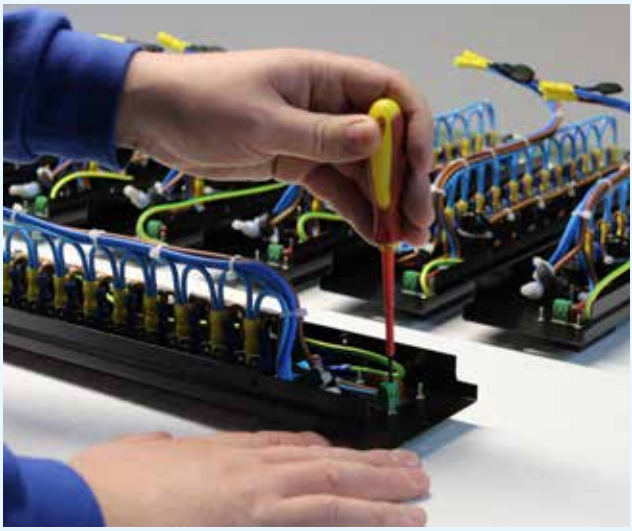
Olson offer a range of sheet metal fabrication solutions from one off custom or prototypes to full production batch runs. They have a highly experienced fabrication team offering:

- Cutting / guillotine
- Bending / folding to 2m lengths
- Punching
- Spot welding
- Stud insertion

We also have a wide range of metal fabrication machinery including our latest investment a 4 axis automated press brake.

SUB-CONTRACT & OEM MANUFACTURE

Sub-contract manufacturing service to customers utilising a fully equipped ISO 9001: 2015 manufacturing facility including assembly, wiring, cable forms, inspection and testing. We can also store completed products in our warehouse for future dispatch to your schedule.



CUSTOM PDU DESIGN

Olson are industry experts in PDU design and are happy to utilise these skills to assist customers with unique power distribution requirements for a one-off Custom product or full production run.

POWDER COATING

Our powder coat paint spraying service utilises the latest powder coat spraying system and environmentally friendly gas fired drying oven.

CABLE ASSEMBLIES

High and low voltage cable assembly including custom power cables produced to customer designs including international power connectors. All cables are fully inspected and tested before dispatch.
